DETAILED ACTION

This communication is in response to Applicant's Arguments and Remarks filed 04 September 2007 and Amendments and Remarks filed 10 December 2007.

Status of Claims

Claims 1-28 are currently pending. Claim 29 has been withdrawn. No claims are currently amended.

Response to Arguments

The rejection of claims 1-28 under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent Publication US2003/0023536 A1 (Hollerman) and further in view of Forward-Start Options (Forward) is withdrawn as the Hollerman reference is commonly owned.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

Art Unit: 3693

applicant regards as the invention. Specifically, Applicant's claim does not provide a structure positively recited to place the recited data "thereon".

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-28 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are rejected for not being in any statutory class because the only positively recited elements are a collection of nonfunctional data, which do not fall within one of the statutory classes of subject matter.

Claims 1-28 are also rejected under 35 U.S.C. 101 because for being nonfunctional descriptive material on a medium. Assuming that a medium was present in the claims, the claims are additionally rejected for being nonfunctional descriptive material on a medium under 35 U.S.C. 101.
